Tina A. Thomas has practiced environmental law for more than 25 years. She joined Remy and Associates in 1979 and became a partner in 1983. Her current practice includes providing advice and litigation representation to project applicants, local jurisdictions, planning consultants, and nonprofit organizations.

The authors are partners in the Sacramento law firm of Remy, Thomas, Moose and Manley, LLP. Their practice focuses on CEQA and other land use and environmental matters.

James G. Moose has practiced environmental law since 1985. He joined Remy and Associates in 1986 and became a partner in 1990. His clients include public agencies, project applicants, planning consultants, and environmental groups, whom he represents both in the administrative process and in litigation.

Whitman F. Manley has practiced land use and environmental law since 1988. He joined Remy and Associates in 1991 and became a partner in 1996. His practice focuses on advising and representing public agencies, citizen groups, and project applicants regarding CEQA, NEPA, land use, air and water quality, and endangered species matters.

A RESOURCE FOR THE MOST SIGNIFICANT JUDICIAL DECISIONS INTERPRETING THE ACT, WITH EXPERT SUMMARIES AND COMMENTARY

THIS NEW EDITION has been completely reorganized and reformatted to make it more user friendly. It presents an understandable, in-depth description of CEQA's requirements for adequate review and careful preparation of environmental impact reports and other environmental review documents.

OF PARTICULAR SIGNIFICANCE is the authors' interpretation of the Court of Appeal decision entitled *Communities for a Better Environment v. California Resources Agency*. Also, attention is given to the CEQA Guidelines and issues of day-to-day CEQA practice, such as regulatory standards and significant thresholds. New material is included pertaining to CEQA and the requirement that water supply issues be addressed in EIRs.
